

Artisan Mind artfully connects the heart and mind of individuals living with Alzheimer's and other dementia. Experience how creative expression offers inspiration, socialization and hope for all concerned.

## ART REFLECTIONS

### A creative array of art and expression

Through the use of vibrant photo imagery and "failure-free" painting sessions, we create expressive art experiences using imagination, beautiful paintings and photographs.

Designed for those living with memory challenges and their care partners, participants have the opportunity to guide the direction of the presentation based on what inspires them most. Individuals are also encouraged to share their ideas and story telling as interpreted through the art.

The benefits of creative engagement among participants include an increase in

- life quality
- self-esteem
- social inclusion
- emotional connectedness
- positive mood

No previous art experience necessary.  
Families and care partners are encouraged to attend.

**Please join us at Revere Court**  
**Every first and third Friday at 10:00am**  
**Please RSVP: (916)392-3510**
